EDUCATION

Bannari Amman Institute of Technology, Sathyamangalam, Erode

2024 – 2028

B.Tech in Artificial Intelligence and Machine Learning

CGPA: 7.62

Relevant Courses: AI, ML, Data Analytics, DL, OS, DSA, Algorithms, DBMS, OOP, Distributed Systems

SKILLS

Languages: Python, Java, C, JavaScript

Tools: Git, VS Code, Firebase

Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow

Frameworks: Django, Spring Boot, React, HTML, CSS

Databases: MYSQL, SQLite, PostgreSQL, MongoDB

AI/ML: Gen AI, Machine Learning, Prompt Engineering, Information Retrieval, Data Science, Deep Learning

Soft Skills: Problem Solving, Leadership, Analytical Thinking, Team Collaboration, Self-learning

TRAINING PROGRAM :

AI TRAINING AT NAVIGATE LABS

Jan-Dec 2026 (Present)

- Completed structured training in **Machine Learning, NLP, Deep Learning, and Generative AI**.
- Built mini-projects involving **data analysis, predictive modeling, and AI application development**.
- Worked with **Python, Scikit-learn, Pandas, TensorFlow, and LLM-based technologies**.
- Applied problem-solving and analytical techniques to real-world datasets and use cases.

Full Stack Developer Training Intern - TechnoHacks EduTech Pvt. Ltd. (Virtual Internship)

Jul-Aug 2025

- Built full-stack web applications integrating frontend, backend, and database components.
- Developed responsive interfaces using HTML, CSS, JavaScript, and related frameworks.
- Implemented authentication, data storage, and API integration features.
- Enhanced application performance through testing, debugging, and optimization.
- Gained practical experience in software development lifecycle and project deployment.

PROJECTS

StockVision — Python, TensorFlow, LSTM, Pandas, Streamlit

Built a deep learning-based stock market prediction platform using LSTM networks to forecast stock price movements from historical market data. Integrated interactive dashboards for trend visualization, performance analysis, and buy/sell signal generation.

ResumeScreen AI — Python, Scikit-Learn, NLP, Streamlit, PostgreSQL

Developed an AI-powered resume screening system that analyzes resumes, extracts skills, and ranks candidates based on job descriptions. Implemented NLP techniques for keyword matching, ATS score prediction, and candidate-job fit assessment to streamline recruitment processes.

CareerCoach AI — Python, LangChain, LLM, RAG, Vector DB, React

Developed a multi-agent AI career coach that provides ATS resume analysis, skill-gap identification, personalized career roadmaps, mock interview generation, and job recommendations. Leveraged RAG architecture and vector databases to deliver context-aware guidance for students and job seekers.

EasyWithAI — Django, React, LangChain, LLM, PostgreSQL

Built an AI-powered tool for entity recognition, NLP translation, and intelligent email generation. Implemented a streamlined workflow for automated text processing with prompt engineering and fine-tuned LLM integration.

LandRecord AI — Python, LangChain, Gemini, RAG, FAISS, React, PostgreSQL

Developed an AI-powered land document analysis platform for government record management, enabling citizens to upload and analyze Patta, Chitta, and land ownership documents. Implemented Retrieval-Augmented Generation (RAG) and semantic search to provide document summarization, ownership verification, key information extraction, and natural language query support for improved accessibility and data transparency.

Coding Proficiency:

LeetCode: Solved 175+ problems on LeetCode.

CodeChef: Practiced data structures and algorithms on codechef and actively participating in coding contests to enhance problem-solving skills.

Certifications

- Python(Basic) - HACKER RANK
- Basics of Python - Infosys | Springboard
- Artificial Intelligence Beginners Guide - simplilearn
- Amazon Q Introduction - AWS
- Full Stack Development - TechnoHacks Solutions Pvt. Ltd
- C Programming Basics - simplilearn
- Introduction to Cybersecurity - Cisco Networking Academy
- Networking Basics - Cisco Networking Academy
- Operating System Basics - Cisco Networking Academy
